Hobbies

Reading
I'm an ardent reader, I like to spend my spare time reading books. My favorite books are: Wuthering Heights, The Hitchhiker's Guide to the Galaxy, Never Let Me Go and Dracula. I also like to read books which are about psychology and self-development. One of my favourites is The Body Keeps the Score by Bessel van der Kolk Learning a New Language Since I currently reside in Italy, I have been learning Italian, a language which I admire for its richness.

Profile

Hardworking, consistent and determined Master Student seeking employment. I care about doing a meticulous job even under high levels of stress, thanks to my calm personality.

I can confidently say that I am a very **well organized** person both in my daily and professional life. **I care about my responsibilities**, and I am always eager to give the effort that my job requires.

I believe in **efficiency**, and positive outcomes, that enables me to see the bigger picture. And this gives me the ability to **predict possible difficulties** ahead, and the solutions for it.

During my years at the university, I was given many tasks and responsibilities, and having read and analysed so many critical works of literature and cultural texts, I have developed a sense of **deep understanding of humanity** and society.

For this reason, I have gained an analytical perspective which I believe is crucial for entering professional life in this field.

Also, I would say that communication is one of my biggest strengths, both in my personal and professional life. Throughout my life, I have been able to **solve** so many difficulties and inconveniences with my **good communication skills**.
