

A Language Trust

INTRODUCTION: -

We are a group of freelance translators and interpreters providing translation, localization and interpreting services in a broad range of fields and languages. Our translators and interpreters are experts in their native language and their second language, competent in their specific fields and have many years of professional experience. At A Language Trust we have professionals available who are capable of undertaking translation jobs of any size, focusing on the needs of each and every client regarding text types, areas of specialization, technical requirements and languages. Our translation team has the linguistic skills and abilities necessary to solve your communication needs, thanks to their many years of professional experience and perfect command of their source language. Moreover, to ensure the quality of each translation project, we choose the right translator for each client and we assign a backup team of translators, if necessary. Thanks to these teams of highly qualified professional linguists, we are able to undertake any project, whether a 500-page technical manual or a 4-page product description.

OBJECTIVE: -

Our objective is to provide the highest level of language translation services. Each task is carried out by professionals who provide translation services that are technically accurate according to your specifications, all while meeting the deadlines and approved budgets.

GOAL: -

Help our clients increase their corporate growth by providing them with the necessary tools to communicate with local and international markets, and with clients of different ethnic and cultural origins. We help break the linguistic barriers our clients face and turn them into successful communication tools. Customer service and satisfaction are the key

elements of our success.

SPEED AND PUNCTUALITY: -

Nowadays business seems to move at the speed of light. Keeping to tight delivery deadlines and maintaining high quality, punctual delivery within a stipulated budget makes A Language Trust a highly reliable agency. However, we never accept unrealistic deadlines, as this would undermine our quality.

QUALITY: -

Every client expects a translation agency to guarantee the highest possible translation quality. Quality is our priority; therefore, our linguists undergo initial testing and constant reevaluation.

All our efforts are targeted to assuring the highest quality. To achieve this goal:

“Each translation is performed by a native-speaker of the target language of the text.”

“Each translation is edited and proofread by another translator.”

No matter the volume, our translations are rigorously checked to ensure the greatest accuracy.

CONFIDENTIALITY: -

Confidentiality is a key issue for A Language Trust. We understand your business is that... your business. Therefore, all documents handed over to our agency are treated with the strictest confidentiality.

Our translators are bound by non-disclosure agreements, since we often deal with sensitive, confidential and pre-released material during the translation process. We always take every precaution necessary to keep

your data safe and secure.

Moreover, information on our clients and their activities is also confidential. Therefore, we do not make it public on our Web-site.

A Language Trust can provide what you need... when you need it.
