

RixTrans – Your new generation language service provider

RixTrans is a consistently professional and affordable translation company that specialises in providing quality language solutions to companies and organisations that are operating in the IT, marketing, medical, technical, telecommunications, government, finance and automotive industries.

Quality is the key component of RixTrans business, so we treat quality issues very seriously. To satisfy our customer needs, we work only and exclusively with competent mother tongue translators and interpreters. As a RixTrans client, you will receive not only quality translation completed by a native speaker of the target language, but also document proofreading which has been carried out by another professional linguist, and a text revision by one or more industry experts for highly complicated projects.
