

Introducing **Skopos Traductores (Skopos Translators)**, established in 2013, with the purpose of creating first-class solutions in translations.

During our years of operation, we have established ourselves as a leading translation company for clients in Mexico and overseas. Our translation and interpretation processes are based on technological innovations, which have enabled us to generate added value for our clients.

Our work team consists of an extensive network of highly qualified and specialized native translators, who provide support to companies and clients in accomplishing their project goals. Our broad knowledge, expertise and comprehensive services help transcend borders and reach new audiences, thanks to the passion with which we carry out each of our activities as well as the respect and commitment we offer both our clients and collaborators.

At Skopos Traductores we cater to the different needs of companies and institutions pertaining to different fields like technology, health and pharmaceuticals, finances, engineering, communications, marketing, etc. We also work for government organizations and agencies dedicated to legal matters.

Whether it be a simple translation or a certified translation (prepared by an expert translator certified by the Mexican Supreme Court of Justice), our translation method is unlike that of any conventional translation agency. In the best of cases, traditional translation agencies employ a 2-step method in which one person translates and another reviews; a method that sometimes leads to costly losses in time and money. To ensure the best quality in translations, we conduct a 3-step process called **T-E-P** (Translation, Editing and Proofreading). We also implement the aid of specialized dictionaries and glossaries of terms by subject and client, as well as translation tools and translation memory databases, to ensure consistency in the translations and gradually build up the linguistic style desired.

Have a conference or meeting with overseas clients? Leave simultaneous interpretation in our hands. We have either interpreters for events, or accompanying interpreters that make your clients feel at home from the moment they step off the plane, to the moment they arrive at their hotel.

We translate opportunities in **German, Arabic, Farsi, French, Hebrew, English, Italian, Japanese, Chinese, Dutch, Polish, Portuguese, Russian, Tagalog, Vietnamese**, among other languages.
