# LANGUAGE SOLUTION

Empowering Relations  
by Enabling Communication

## Translation

"Translation is a combination of art & science to create a document from one language to other to communicate its message without changing its meaning."

Break language barriers with our translation solutions that is offered under the guidance of native translators having years of experience in the respective domain. Today translation is an indispensable part of business. Hence, if you want to expand your business horizons globally then you cannot neglect the translation and Rajinfo Technology Services Pvt. Ltd. is here to help you in the same.

## Transcription

"Transcription is one of the business services of converting electronically recorded Medical, Legal, General and other business related speeches into text."

To conduct smooth and clear communication between two parties with accurate understanding of information contained in files are vital in order to avoid any sort of misunderstanding and disputes between them. By presenting text versions of the audio and video content in a professional presentable format, companies can enjoy the higher level of clients' trust and retain future long-term business as a result.

Proud to align with below given prestigious organizations to deliver our Language Services
