About the US

TomHawk is an online translation and writing organization. Since 2012, we have attempted to guarantee the most excellent scales of services and offer steady services in translation and transcription areas. We esteem our clients, guarantee research scope, and ensure timely delivery. We [provide translation and transcription in business and medical fields in different languages.

TomHawk is interpretation HUB is another age translation administrations organization devoted to giving practical, precise and secure sound/video translation and transcription services. We influence trend-setting innovation and smart writing services to deliver fully prepared order to our customers over the globe.

Tomhawk HUB is a customer service website and our staff is available 24/7 to serve and fulfil the needs of our customers. Our company runs by the smart HR team and expert translators /writers. We ideally influence these assets to decipher as well as interpret your significant archives with speed and precision.

Our Transcription services spread a few regions including sound/video general translation, legitimate interpretation, clinical translation, instructive translation, protection/agents' translation among others.

Our Translation services are likewise utilized by business companies around the globe. We can consistently change over a wide scope of reports in more than 35+ global dialects. We additionally give multilingual video Subtitling administration, which permits makers and editors to add unknown dialect captions to their recordings.

Transcribing is a fundamental thing for viewers or journalists who are hard of hearing or in need of hearing aid for expert's interviews. We transcript verbally expressed words and synchronize the words with audio cues and other non-discourse components of the video.

Services:

TamHawk services are made normally for the business customers, companies, journalists, health professionals and students of college and university levels. In these services translation, transcription, academic writing/editing/proofreading and content/blog writing are included.

Transcription

It essentially involves the change of an audio feed to text that is called transcription. These services are often difficult with the production of any multilingual video/audio content and it is not an easy task. We do transcribe the text, once it has done it can be captioned right away for the hearing reduced or as an instrument for those who do not know the original audio feed's vocal version of the language or those who prefer to see the written form of the spoken language of an audio file in the source language to balance the audio stream.

We provide transcribed material that may also be used as the basis of the subsequent translations into different languages. TomHawk Translations has an expert team devoted to transcribing audio content for use in the concluding post-production and translation procedure.

At TomHawk transcription Hub, all our transcription projects are managed by professional human transcribers. We have specialization in transcription services for academia level, legal and healthcare professions, media, official, and businesses.

No matter your business or area of expertise, Transcription Hub provides fast, accurate transcripts of meetings, conferences, interviews, videos, and much more.

We operate in multi-languages, i.e. French, Spanish, Swedish, and Norwegian, Finnish, Danish, English and German. Our multilingual transcribers perform transcription projects who have vast experience with providing text-to-text, audio-to-text, or verbatim transcription at a rational price.

Subtitle and Captioning Services: Mounting the importance of transcribing TomHawk experts understand it and with increasing the importance of ADA-compliance online, having a video/audio without a supplementary text transcription means you're strictly limiting your potential understanding and business needs. TomHawk transcription Hub has wide-ranging experience transcribing and translating videos into readable, searchable text documents in many formats.

TomHawk not only transcribes but also providing the services of subtitling and captioning that can be delivered in multiple formats, languages, and within given time deadline including competitively priced and with final accuracy reaching 99.9%.

Research and Academics Transcription: TomHawk assists researchers, students, and teachers translate their recorded materials to numerical or written text, making it easier to find and analyze data when it's wanted most. We offer promotional and discounted pricing for academies

Medical Transcription: Our experienced, professional medical transcribers follow and make sure for accuracy and confidentiality of HIPAA-compliance with guaranteed satisfaction. For the convenience of customers, Tomhawk transcription Hub provides a toll-free phone-in dictation structure to the physician. We offer 15 days free Medical Transcription Services as well for our valued customers.

Legal and Law Enforcement Transcription: Not only lawyers but also law enforcement officials, and private detectives trust Our transcription services to get professional transcriptions of case files, recorded interviews, and taped testimonies.

Types of Transcription

We have aimed at TomHawk is to provide transcript service of all types and in different languages to provide you with the best solution for all your transcription needs. Our transcriptionist handles the following types of transcriptions: media, television, digital audio and video production, interviews, phone calls, lectures, speeches, conference calls, podcasts, focus groups, seminars, panel discussions, multi-person interviews, research interviews, documentary interviews, legal and judicial proceedings. Along with these services, we also provide transcription facilities in prescribed languages with assured accuracy and error-free transcribed text.

Translation

Our multilingual professionals' are the one who only ever translate into their mother tongue, ensuring confident, natural-sounding results as per clients' demands and needs. Although, professional translation entails proficiency and knowledge our translators know their challenging areas such as legal, academic, technical, engineering and medical, where the target delivery accuracy is of vital importance. These projects are done by our expert translators who are specialized in such fields. Once the translation is done then out translators' managers carefully review and analyze the source file with the translated file for correctly matching it with a translator. The main feature of this activity is to ensure these projects are distinct from the general type of translations that they involve impeccable command of unconventional

terminology and research. Our translations managers' proofread and edit carefully review the translations for the assurance and meet our quality standards.

TomHawk Translations has a separate dedicated team to provide high-quality and cost-efficient translation services. Contrasting to other translation companies, TomHawk Translations has the unique capability of transcribing and translating media of all types and in different languages.

From extremely multipart legal content to technical medical papers and documents, TomHawk Translations has native translators to provide you with the services of translation from one language to another you need at the most affordable prices in the industry. As with all of the services TomHawk offers, we do follow strict confidentiality and quality standards.

Our Translation Hub is the preferred provider to over 500+ clients worldwide and is reliable by the most trustworthy organizations in the world. Whether you need commercial, legal, medical, educational, or customer service-related transcription services, no need to think because TomHawk is your cost-effective, reliable solution.

Skilled Experts for SEO Writing Content

Search engine optimization or SEO as it is commonly referred to as an essential tool for companies in need of building their online presence. Our experts know what Search Engine Optimization (SEO) is, and how is it beneficial to the type of business. This is among the most asked questions by companies that are either building their website or in the redesign phase. Search engine optimization can feel like an intimidating task, but it does not have to be what holds you back from being recognized online.

Nonetheless, most companies do not yet fully realize the benefits of search engine optimization or do not have a great SEO expert readily available. However, we offer these services and these companies can still make some changes that will help them get noticed by even more search engine users worldwide. SEO is fundamentally a process that optimizes your website in an attempt to entice more organic and unpaid traffic from different search results. Our SEO experts alter the website content by using common phrases that search engine users commonly use.

Our SEO service has been successful for most companies because search engines want to offer high-quality services to their users, i.e., the delivery of relevant results that are not only high-quality but also fit the description to what the client is searching for. Our experts produce a search engine that goes through content from various sites for the different topics and keywords to provide the most appropriate results first. Therefore, the need for a search engine optimized site is on the rise, and this is precisely why the customers prefer to hire our SEO services.

Blog Writing

TomHawk provides the services of blog/ article writing you probably have lots of free time that you would rather use productively. Writers take projects related to different niches about which they are sure to provide quality content in a great way of boosting their writing skills. We not only provide web site content but also blog writing, email writing and sales copy of your business product/idea.

Academic writing

Tomhawk presents the services in the academic writing field, i.e. essay writing, research papers, report, business writing, thesis and dissertations. Your manuscripts need to be consistent and by the submission requirements of your target journal. With their extensive experience in formatting styles such as APA, MLA, ACS and AMA, our editors ensure your papers are ready for publication down to the very last detail.

Getting help in your academic and essay writing is easy and simple. All you need to do is to fill out the contact form, take a visit to price plan, upload your document, and get registered with your first order at TomHawk. We are on the viewpoint for students and PhD scholars who want consistent quality work without any plagiarism and timely delivery while meeting the highest levels of standard.

Our subject matter specialized tutors provide help to students in a wide range of subjects including Business, Math, Economics, Accounting, Law, Taxation, Nursing and Statistics etc. We support students with paid writing essays. TomHawk is a great platform for talented writers as well connects with hundreds of students that need high-quality academic content for a wide range of topics. That's right; a large number of students of all levels go to our website to get assistance with their projects. It includes everything academic-related: from poems to long

papers. The best part is that we assign different orders to different highly qualified academic tutors who do work hard and assist students in preparing their assignments and exam preparation.

We are the forefront company where writers also earn a reasonable income in the comfort of their home. Not only scholars can get written essays online, but also ask for their exam courses training in the academic writing industry. We also provide help book reviews, PowerPoint presentations, thesis topics

Proofreading/Editing

TomHawk is not only providing academic writing service but also proofread/edit the text with different phrases and words without changing content and meaning. The process of proofreading consumes time to read all the text and individual phrases while preserving accuracy requires both perfect commands of the source and target language and technical skill in this field. Our eligible proof-readers/editors who perform the editing process are categorized into their area of the subject and complete editing processes in their area of expertise.

Our editors provide their services in making corrections such as grammar, writing rules, and format by preserving the context and meaning of the source file. This method requires extensive knowledge of grammar and writing rules which our editors already have.

Some- time a non-English native author wants to submit a research article in international journals but they require an editing certificate from at the time of submission. To assist, to continue more seamless publishing journey, we help the researchers and students by issuing such certificates for documents that have already been proofread.

Why Choose Us?

Tomhawk translation and writing company offers a variety of services according to our understanding of the diverse needs of modern businesses in a technological world. As your transcription assistance partner, you can rest confirmed that your project will be completed by a native-speaking translator /transcriber and subject-expert writer who has at least 5 years' experience in the industry before being checked and recommended by a second expert, ensuring accuracy and reliability.
