Microsoft Office

SDL Trados

MemoQ

Wordfast

Photoshop

InDesign

PROFILE

I am an EN->LT Translator who can work with various CAT tools, such as *SDL Trados Studio* and *MemoQ*. I started to build up my experience while I was still studying at university and during my first translation internship. I have experience in translating a variety of subject areas, such as technology, education and science, transport, legislation, etc. I can use support materials, dictionaries, databases, and other information resources. My great self-organization skills help me to maintain a good pace in my work despite tight deadlines. Moreover, I have a basic knowledge of *InDesign* and *Photoshop*, so DTP is not too challenging.

EXPERIENCE

eMundus – Translator (Internship)

Feb 2021 - Apr 2021

This institution focuses on educational projects, which meant translating educational materials, including:

- slides;
- methodological materials;
- surveys;
- summaries.

Alumnus – Translator
