Profile

Detail-oriented chinese language major with extensive knowledge of chinese culture, history and society. I'm highly motivated and I always go to great lengths to get the right results, I'm thus willing to travel and go through any kind of training to achieve my goals.

I'm able to work autonomously and use my own initiative, but I am also a very good team player. My extensive experience of studying abroad has allowed me to become accustomed to working in a multi-cultural environment and now I find dynamic workplaces stimulating and rewarding. I'm able to work under pressure and, with an excellent problem solving ability, I am capable of prioritizing and scheduling my deadlines.

I am confident, but with a diplomatic and professional approach that allows me to bring forth smooth communication with a wide range of people.
