Receptionist: beth-shalom Hotel – Haifa - <https://www.beth-shalom.co.il> 2000 - 2002

Stand out

In my recent position I have to register the work time of all the workers of the company through a register device, and at the end of the month I have to produce a pdf file for every worker showing his monthly work time, so I reduced this process by creating VBA Excel code to get the data from the device and organize it in proper tables.

Hobbies:

PC software discovering and gaming, translating from German to Arabic, Bible study, traveling in Europe.
