

Quality localization and translation services in all of the languages you need

LocaTran offers translation services for all your deliverables, specializing in the languages and cultures of your customers. We have helped hundreds of leading companies in diverse industries prepare products and content to accelerate their global growth and opportunity. For more than 10 years we have been helping companies express themselves in any language. In fact, LocaTran annually translates over 5000 documents, primarily for the engineering, financial, legal, medical, IT and telecom sectors. That's over 40 million words!

Languages offered include:

English, Chinese, Japanese, Korean, French, German, Italian, Spanish, Albanian, Arabic, Bulgarian, Burmese, Czech, Danish, Dutch, Finnish, Greek, Hungarian, Indonesian, Kazakh, Malay, Norwegian, Persian, Polish, Portuguese, Romanian, Russian, Swedish, Thai, Turkish, Ukrainian, Vietnamese, etc.

Document Translation

We help you speak the language of your global marketplace. Nearly 800 in-country writers, editors, translators and reviewers are at your service for all your translation needs in more than 80 languages. We can localize content for everything from user's guides, software applications, to websites.

Patent Translation

LocaTran is the largest patent translation specialist in the world, annually translating more than 5000 patents and IP-related documents from production sites in China, USA, UK and Japan. All translations are carried out by subject specialists who have been additionally trained for patent work.

Software Localization

LocaTran is renowned for translating technical material for any medium. Of course we can translate printed documents for any purpose, but we can also do the job of localizing your software and help files as well. Using the same skills and resources as we do for print, we can keep your software up to date too.

Desktop Publishing

LocaTran specializes in creating manuals on a broad range of technical subjects, in over 80 languages, in electronic media as well as in print. We can help you achieve greater market penetration through multiple media including print, online distribution, and CD-Rom.

Interpretation Services

Whether a client requires simultaneous interpretation for large conferences or consecutive interpretation for depositions or meetings, that client must have complete confidence in their interpreter's skills. LocaTran selects from among the most highly qualified interpreters to meet our clients' needs in any location of China. We can also provide on-site coordination and interpreting equipment. Whether you request interpretation services weeks in advance or on short notice, our client service professionals are ready to assign the best interpreters to meet your needs.
