## WORK EXPERIENCE

### **English Teacher (retired)**

'Logos" - Санкт Петербург - September 2004 to December 2010

#### Responsibilities

My main responsibility was to help my students understand English, speak it and be able to write and read it. To reach the main goal it was necessary to organize and plan lessons, have resources ready for the classroom. I have never been satisfied with the National curriculum on the basis of which the English teachers in Russia should work in the state schools. So I preferred working in a private school or teaching students privately where I could go out of the frames of National curriculum and use more teaching resources and better technologies that help a teacher work towards making classes entertaining and creative when teaching English as the second language.

#### Accomplishments

The main impact that I had during my time at this job was that my students managed to reach higher level success in learning English and get the highest score when passing the final exam.

#### Skills Used

Creativness, analysis, interpersonal skills to communicate effectively, comprehensive abilities and research abilities,problem solving aptitude with good instruction abilities

## EDUCATION

### **Diploma,Beachelor's in Linguistic**

Linguistic University - Пятигорск

1966 to 1972
